## Table of contents

- What resources or training have you used to support implementation of ESD in teaching?

## What resources or training have you used to support implementation of ESD in teaching? (1/2)

005

- Learning for Sustainability Scotland Webinars, resources and community of practice, linking into UNESCO activities and resources. This is Scotland's United Nations University Regional Centre of Expertise in ESD
- Annual sustainability workshops or festivals in which people share activities and lessons across different disciplines - within our institution
- The Golden Dandelion certification and prize scheme
- for ESD at university of st Andrews
- Training - a short CPD training we have just started at the University of St Andrews
- We are looking to develop the implementation of SDG's going forward so really interested to hear suggestions
- Sterling and QAA/ Advance He as well - also EUAC training
- It's an oldie but I like the table in Wiek et al. (2011) Key

## What resources or training have you used to support implementation of ESD in teaching? (2/2)

005

- competencies in sustainability: a reference framework for academic program development in Sustainability Science
- College Development Network presentations from their Climate Conference last year were shared
- The Sustainable University Book 2013 edited Sterling et al
- The QAA / Advance HE Guidance for ESD in HE
