Note: All participants encouraged to contribute their thoughts on these topics with the group

Topic 1: PBCCD Reporting Calculations: Energy from Waste vs Recycling

Specific question: If a university's EfW contractor gets 100 tonnes of waste from them a year but then removes 90 tonnes of metal/paper/plastic/etc. for recycling at their facility, can the University then report 10 tonnes of EfW and add the 90 tonnes to their recycling total rather than report the total 100 tonnes as EfW?

11:50am Roundtable discussion on other waste management issues of concern to member institutions

11:55am Summary and EAUC updates

Paulo Cruz, Head of Operational Sustainability, Glasgow Caledonian University
Lara Fahey or Matt Woodthorpe, EAUC Scotland

12pm Close
